

Science – Seasonal changes

This term we will be learning about seasonal changes, using our observation skills. The core knowledge taught will focus on: Know the names and features of the four seasons, know we wear different clothes in different seasons to match the weather, know how to observe and describe the weather associated with winter and spring and know weather can be measured through collecting and recording simple data.

Animals including humans

During the term, we will be learning about animals. The core knowledge taught will focus on: Know, identify, describe and compare a variety of common animals including fish, amphibians, reptiles, birds and mammals and know and classify animals by what they eat (carnivore, herbivore and omnivore). We will also be learning how to sort living and non – living things.

RE

Special People – The children will learn about the special people in the parish family. They will recognise the special people in the parish and learn Bible stories that show Jesus as a special person (The Presentation and the Temple).

Meals – In this topic, we will be exploring the mass and learning about how mass is Jesus' special meal. We will recognise and talk about the actions, signs and symbols within the Mass and recognise the story of The Last Supper.

Change – During this topic, we will focus on the special time of Lent and Easter. They will learn about how they change and grow and that Lent is a time of change in preparation for the celebration of Easter.

PSHE:

In this topic, we will be thinking about who is special. The core knowledge taught will focus on: Know who is special to us and how we can communicate with them, know the difference between appropriate and inappropriate behaviour and know when and how to say sorry and seek forgiveness. This will give the children time to reflect on their actions.

DT: Food – Fruits and Vegetables

Our topic will be fruits and vegetables and we will be making a smoothie. The core knowledge taught will focus on: know how to discern between the flavours and identifiable features of fruits and vegetables to make a smoothie and know how to cut soft fruit safely using a claw grip.

Art: Indian Block Making

Children will be learning about Indian Block Making. The core knowledge taught will focus on: Know that prints can be made from ordinary objects e.g. paper, string, and cardboard and know how to create their own a simple design for a block print using string, card and PVA glue.
